

"A Line in the Sand"  
Creation Science Part 2  
Pastor Daniel Carr  
Genesis 1:1-2  
June 6, 2010

The issue of a young earth really is a battle over the \_\_\_\_\_ of God's Word.

Exodus 20:11 (NKJV)

*"For in six days the LORD made heaven and earth, the sea, and all that is in them, and rested the seventh day: therefore the LORD blessed the Sabbath day, and hallowed it."*

Three Biblical Possibilities:

1) The \_\_\_\_\_ Theory

Three Major Problems with the \_\_\_\_\_ Theory:

- "\_\_\_\_\_ " Means "\_\_\_\_\_".
- \_\_\_\_\_.
- \_\_\_\_\_?

2) Non-literal "\_\_\_\_\_"

Genesis 1:5 (NKJV)

*God called the light Day, and the darkness He called Night. So the evening and the morning were the first day.*

- Use of the Hebrew word "*day*" is \_\_\_\_\_.
- General \_\_\_\_\_ of the events, not a day-by-day account.
- Issue of \_\_\_\_\_ preceding the Fall.

Genesis 1:31 (NKJV)

*Then God saw everything He had made, and indeed it was very good. And the evening and the morning were the sixth day.*

Romans 5:12 (NKJV)

*<sup>12</sup> Therefore, just as through one man sin entered the world, and death through sin, and thus death spread to all men, because all sinned —*

3) Genesis is \_\_\_\_\_ and \_\_\_\_\_.

Romans 3:4 (NKJV)

*<sup>4</sup> Certainly not! Indeed, let God be true but every man a liar. As it is written: "That You may be justified in Your words, And may overcome when You are judged."*

SCIENTIFIC EVIDENCE:

- \_\_\_\_\_ wind themselves up too fast.
- Not enough \_\_\_\_\_ remnants.
- Seafloor \_\_\_\_\_ accumulates too fast.
- The Earth's \_\_\_\_\_ is losing energy too fast.
- Biological material \_\_\_\_\_ too fast.
- \_\_\_\_\_ is too short.
- Written \_\_\_\_\_ is too short.
